***Ocean Atlantic Sotheby's International Realty Agents Receive
Green Designation***

Rehoboth Beach, Delaware, May 28, 2009: Ocean Atlantic Sotheby's International Realty of downtown Rehoboth Beach would like to congratulate agents; Susan Pomerantz, Path Snyder, and Geoff Manns for recently earning the NAR Green Designation offered by the National Association of Realtors®. The 3 were among approximately 70 agents from Delaware, Maryland, and Virginia that were all working toward this new designation. The agents participated in a 3-day course held at the Sussex County Association of Realtors®.

As "green" homes and building practices become more popular, buyers are shifting from large homes to efficient, small and mid-sized homes that use up to 50 percent less energy and they are looking for Realtors who can be a green resource. □□This course provided real estate professionals with knowledge and awareness of □green-building principles applied in residences, commercial properties, developments, and communities. Real estate professionals were trained during this course to help consumers in purchasing, retrofitting, and building green properties. □□The course was designed to encourage the real estate professional to be an advocate for green principles in the design and use of homes and commercial buildings, and a positive force for creating sustainable communities.

Green has become an over-used word in the real estate and new homes market and

consumers are having a difficult time understanding what it means. "We help our consumers distinguish certified green builders from all others popping up and claiming to be green," stated Susan Pomerantz, "this is a huge advantage for the buyer".

For detailed information on how to select a true "Green" professional, please contact Susan Pomerantz, Path Snyder, or Geoff Manns at 302.227.6767 or visit them online at www.OASothebysrealty.com.
